

“It’s never too late?” Think again...

Don’t forget to have regular “Check-ups”

CHECK UP - WOMEN - AGE 40-64

Examinations

- Check-up Physical Examination
- Check-up Overall Evaluation
- Dietary and Nutritional Assessment
- Gynecological Examination
- Dental Examination

Radiological Imaging

- Abdominal and Pelvic Ultrasonography
- PA/L Lung Graphy
- Breast Ultrasonography (bilateral) -RD
- Mammography (bilateral)

Heart Screening

- Cardiac stress test
(Treadmill, Bicycle, Pharmacological)
- Doppler Echocardiography + Color + M mode + B mode

Biochemical Analyses

- Complete Blood Count (Hemogram)
- Uric Acid
- Lactate Dehydrogenase
- Sedimentation (ESR), 1h
- hsCRP (high sensitivity)
- Total Protein,
- Albumin

Vitamins & Minerals

- 25 Hydroxyvitamin D (Vitamin D3)
- Vitamin B12
- Folate
- Ferritine
- Total Iron Binding Capacity (TIBC)
- Iron (Fe)
- Calcium

Diabetes Screening Test

- HOMA-R (Insulin Resistance, IR)
- Hemoglobin A1c (%)

Blood Lipids

- Total Cholesterol,
- Cholesterol-HDL (High density lipoprotein)
- Cholesterol-LDL (Low density lipoprotein)
- Triglycerides

Liver Functions

- ALT/GPT Alanine Aminotransferase
- AST/GOT Aspartate Aminotransferase
- Alkaline Phosphatase
- GGT Gamma Glutamyl Transferase

Renal Functions

- BUN (Blood Urine Nitrogen)
- Creatinine
- Urinalysis
- Microalbumin, Spot Urine

Thyroid tests

- Thyroid Ultrasound,
- TSH

Stool tests

- Ova and Parasite Test + Stool Colored
- Hidden (occult) blood in stool sample

Gynecological Screening

- Cervical / Vaginal (Thin-Prep)
- HPV
